Subscription \$2.00, U.S.A. \$2.10

BUFFALO HILL NOTES

The Annual Meeting of the Ratepayers of Buffalo School District, No. 1704, will be held at the School House on Saturday, January 11th, 1936 at the hour of 2 p.m. for the Election of a Trustee and other business. A full attendance is desired.

A. E. Starling, Secretary.

Mr. Hirst Goldthorpe was a Calgary visitor on Monday and Tuesday. He was accompanied by Win.

The next dance at Buffalo School will be held on Friday, Jan. 17th. The same popular price, good floor and good music.

SHOULDICE NOTES

The Shouldice and Swastika Schools held their Xmas Tree in the Shouldice Hall on Friday, Dec. 20th. There was a good turnout in attendance. The program was appreciated and Santa was good to all the children.

Miss Fisher, teacher at the Swastika School, is spending the Xmas holidays at her home in Okotoks.

Mr. and Mrs. R. F. Williams and family are back from Banff for the Xmas holidays.

Mr. and Mrs. P. Stull are spending their Xmas holidays with their parents at Carstairs.

Mr. Gordon Mowat is spending the holiday with his parents at Parkland.

Mr. and Mrs. D. Yuill and daughter Ida, spent Xmas with Mr. and Mrs. V. Service and family at Gleichen.

Mr. and Mrs. M. Edwards and daughter Barbara, spent Xmas at Vulcan at the home of Mr. and Mrs. Watt.

Mr. and Mrs. J. Tomti spent Xmas at Vulcan.

Mr. and Mrs. J. Taylor were in Calgary for Xmas.

Mr. P. Brown has gone to Atlanta, U.S.A., where he will spend the winter with his wife.

Mr. and Mrs. S. Brown and family have moved to the P. Brown place for the winter months.

Miss Henderson spent Xmas holidays with her parents at Taber.

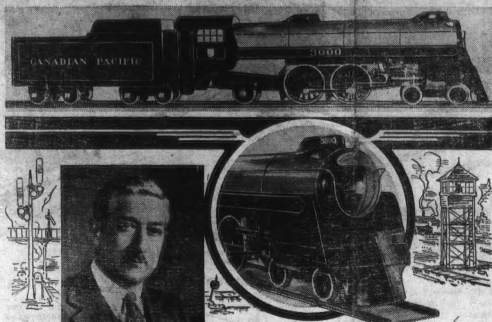

United Church Notes

The subject of next Sunday's sermon will be, "The Imprisoned Bible." This subject was chosen on account of a request by a member of the congregation that a sermon be preached on the Bible.

TRAIN SCHEDULE AT GLEICHEN

No. 3—8:12 a.m. Does not stop.
No. 515 — 7:45 a.m. Calgary-Bassano Local.

Canada To Have Streamline Locomotives

Marking the peak of engine development in the fifty years since the driving of the last spike at Craigellachie, the Canadian Pacific Railway has under construction five light-weight locomotives, which are being built to attain a speed of 110 miles per hour.

The first five engines will be used to improve the Company's passenger service between Montreal and Quebec, and will haul high speed trains of new light-weight coaches now being built for the service. They are of 4-4-2 type, with a total engine and tender weight of 49,000 lbs., or about 25 per cent. lighter than engines now running, and designed to do the same relative work. This means a consequent

important saving in fuel, water of other countries, and have adapted and developed the best features brought out. The new Canadian Pacific engines mark a square inch, and fitting and upping step forward in locomotive construction. Including super-heaters, feed water heaters, mechanical smokers, roller bearings and tandem connecting rods. They are coal burning, the tenders having a capacity of twelve tons. The tractive effort will be 25,000 lbs.; cylinders 18 1/2 by 28 inches; with the drivers having a diameter of 80 inches. Photographs of a model give a comprehensive idea of the new engines. Last is H. E. Bowen, Chief of Motive Power, Canadian Pacific Railway.

BLACKFOOT HOCKEY LEAGUE SCHEDULE

Jan. 7 Arrowwood at Milo
Jan. 7 Indians at Mossleigh
Jan. 9 Milo at Arrowwood
Jan. 9 Mossleigh at Indians
Jan. 14 Arr'd at Mossleigh
Jan. 14 Milo at Indians
Jan. 16 Indians at Arrowwood
Jan. 18 Mossleigh at Milo
Jan. 21 Arrowwood at Indians
Jan. 21 Milo at Mossleigh
Jan. 23 Indians at Milo
Jan. 23 Mossleigh at Arr'd
Feb. 4 Arrowwood at Milo
Feb. 4 Indians at Mossleigh
Feb. 6 Milo at Arrowwood
Feb. 6 Mossleigh at Indians
All games called for 8:30 p.m. sharp.

F. Mason Wins Draw

The Midget draw took place at the rink during the game against Gleichen last Friday. The winning ticket was held by Francis Mason.

Thursday Half-Holiday

The Thursday half holiday will again be observed in Arrowwood commencing Thursday, Jan. 8. The stores will close at 1 p.m.

For Sale—2 pair boys skates at \$1.75. 1 pair child's skates 75c. Ladies skates \$2.00. See Mrs. Omar Larsen.

HOCKEY NOTES

Playing shorthanded, the Arrowwood Cardinals took the ice against the Blackie Seniors in Arrowwood Monday night to emerge on the long end of a 6-2 score. The game was a somewhat rough affair, but referee, Mel Bowman kept things fairly well in check via the penalty method.

The first period opened with Blackie taking the lead only to have S. Beagle tie the score up before the close of the period. The second period was a repetition of this, Beagle again making the count. This period was very rough, the tussle finally be-

(Continued on page 6)

ARROWWOOD ITEMS

Mr. and Mrs. A. Phillips and son Douglas spent Christmas with relatives in Milo.

Betty Thornton, of Milo, has been spending a few days with Patricia Coleman.

The Public and High Schools will reopen, after the Xmas vacation, on Monday, Jan. 6th.

Mr. and Mrs. Cecil Culp of Rimbye spent the holidays with relatives in Arrowwood.

Mr. Joe Dumka visited with friends in Calgary for a few days last week.

Mr. and Mrs. L. H. Irwin and family and Miss Marion Coleman were visitors to Calgary on Tuesday.

Miss Mary McCann, of Strathmore, spent Christmas at the home of her parents, Mr. and Mrs. J. H. McCann.

Mr. and Mrs. N. Thom and Mrs. H. Carey, of Calgary, spent the Christmas holidays with Mr. and Mrs. N. H. McCormack.

Mr. and Mrs. W. Steiner and family spent Christmas at the home of Mrs. Steiner in Calgary.

Two league games of hockey will be played on Tues., Jan. 7, when Arrowwood goes to Milo and the Indians will play at Mossleigh.

Commencing Thursday, Jan. 8th the weekly half holiday will be observed in Arrowwood when all stores, elevators, etc., will close at 1 p.m.

Mr. and Mrs. J. Mackie and family, and Mr. and Mrs. C. Mackie and family of Namaka spent the week-end at the home of Mr. and Mrs. J. Mackie.

The W. A. of the United Church will meet at the home of Mrs. R. Dahl on Thursday, Jan. 8th. The election of officers will be held and a good turnout is hoped for.

Mr. and Mrs. Laurance Phillips of Milo and Mr. and Mrs. Glen Palfrey of Blackie spent New Years Day at the home of Mr. and Mrs. A. Phillips.

An exchange says a chiropractor is a fellow who gets paid for what an ordinary guy would get slapped for.

Annual Meeting, Little Bow Constituency S. C. Association

The annual meeting of the Little Bow Constituency Social Credit Association will be held at Queenstown on Wednesday, Jan. 8th, at 8 p.m.—weather permitting.

There will be a business session, election of officers, etc., in the morning, followed by a lunch. In the afternoon following the installation of officers there will be no speeches by the Rev. Peter Dawson, M.L.A., Rev. E. G. Hansell, M.P., after which there will be a period for resolutions and general discussion of policies.

A 6 p.m. banquet, prepared by the Queenstown Ladies' Group, will be given. The evening open session will then be addressed by Mrs. W. W. Rogers, M.L.A.

THE LOCAL BONSPIEL

The local Bonspiel which opened Monday is nearing the finish. With the interest among the remaining teams there should be some excitement in the final games.

With the condition of weather and the holiday season, the curling has been progressing in a first rate manner. If anyone is interested in curling, the final games ought to prove very interesting. The final result will be published next week.

Butter is one of the foods which has been widely used for many centuries, but whose true nutritional merit has only recently been brought to light. As for food value, butter is a concentrated energy producer, yielding 2 1/2 times as much heat in the body as the starch foods. This is a strong argument in favor of using plenty of butter. Butter is easily digested and readily and completely assimilated by the body.

QUEENSTOWN ITEMS

Queenstown school held their Xmas concert on Friday Dec. 30 in the Queenstown Hall. It was well attended and Santa was good to all.

Mr. Asselstine spent Xmas with his family in Calgary, returning on the 27th accompanied by them to be the guests of Mr. and Mrs. Roberson.

Mrs. Hogland has returned home from Calgary, where she underwent an operation recently.

Miss Peggy McCumber has been ill with mumps for the past week.

We are sorry to hear that Mrs. W. Oler has been ill this past week.

Miss Evelyn Blower is home, visiting her parents, Mr. and Mrs. W. Blower.

Don't forget the Social Credit Conference to be held in the Queenstown Hall on Jan. 8th, 1936, beginning at 10 a.m. The ladies are providing dinner and supper in Nordoff's store for all who attend.

Many Refinements in Ford V-8 Cars for 1936

FORD V-8 CARS for 1936 feature a completely new exterior treatment with new hood and fender styling, new grille and headlamps, new wheels and many detail refinements. Interiors are new with the style and color of instrument panel and moldings to harmonize with upholstery, trim and appointments. Quiet ballast gates are now used in all forward speeds and reverse. Steering effort is estimated to be reduced more than 25 per cent. ABOVE: The Tudor touring sedan, with commodious built-in trunk. Note the new wheels with 15 1/2 inch hub caps and the longer body lines. INSET: The redesigned front end. Streamlining steps ahead. Fenders have a sweeping inward flare and horns are now carried behind grille in the fenders. Hood louvers are newly styled.

Larsen Implements, Ford Agents, Arrowwood

Morality And Democracy

A Toronto newspaper editor, addressing a club in that city recently made an urgent plea for a return to what he termed the "Old System of Morality," basing his plea on the declaration that if democracy and its by-products, freedom of the press, freedom of thought and freedom of action are to survive, reversion to former standards of morality is essential.

The editorial writer asserted that "democracy never was in greater danger than it is today, even though it may not be threatened by the perils or tyrants, except those of our own creation. The threat is the ultimate moral and physical collapse of democracy's constituent parts."

While perhaps some of the illustrations used by this editor were somewhat overdone, nevertheless the premises on which he based his argument are sound and the warning and its accompanying plea for rehabilitation of some of the virtues which dominated family life and were regarded as an essential in the conduct of trade and commerce in the days of our parents and grandparents are worthy of consideration and should be heeded.

The pendulum of morality and conduct has swung through a wide arc since those days when it was regarded a sin to read a newspaper on the Sabbath day, when children were universally taught and expected to reverence their elders and when those elders themselves were largely motivated by simple but inspired rules in the conduct of their homes, their farms or their businesses and in their relations with their neighbors.

Perhaps the pendulum has swung too far in the direction of lack of restraint and elimination of self-governance, for it is a sine qua non that self-governance is a necessity before one can govern others with success or respect. The loosening of moral standards of the individual is bound to have an adverse effect on the life of the community and the nation and eventually to determine the communal and national welfare.

Few perhaps are prepared to argue that we should return to the prohibitions and restrictions of the mid-Victorian era in their entirety but there is reasonable ground for argument that reversion to some of the virtues which dominated the actions of the period would not only not be amiss but would tend to strengthen a weakening democracy.

Who would deny, for instance, that a more extensive practice of thrift, hard work, reverence for authority, respect for law and order and simple pleasures, would tend in the direction of building up a vigorous, self-reliant nation, or that a nation of individuals, thus morally equipped, is best able to hold its own in the conflicts for supremacy and in the battle for maintenance?

The value of these virtues in the individual in determining the national advancement and welfare is well illustrated in the achievements of the Romans in the century immediately preceding the birth of Christ. During that period the Roman Empire reached the zenith of its brilliant career. It was the era of its most illustrious writers, agriculturists, historians, law makers, commanders and statesmen, yet it was a period in which the simple virtues dominated the upbringing of the youth and the lives of the people.

Testimony to that effect is afforded in a bulletin recently published by one of the grain companies in which the following quotations are found: "The education of the Roman boys and girls of the period was designed to fit them for farm life. Girls were taught to manage a home, to spin and weave; boys to plow, sow, reap, and to manage the business affairs of the farm, and, as well, to know how to conduct the various offices of state, including the very highest for farmers above all others, were chosen to fill these exalted positions."

"The character of the young people was moulded so as to develop a respect for parental authority and for law and order. They were taught to be modest in speech, discreet in behaviour, and as well to be thrifty and self-reliant."

The practice of these simple and fundamental virtues does not necessarily involve abandonment of the fruits of scientific achievement which have so bountifully enriched present day life, but it does mean that we will take advantage of them as we can afford them without mortgaging the future to the bill.

The fact that this tendency on the part of our governments exists is a healthy sign, for governments are supposed to have their ear to the ground and to know what the people want. Maybe the pendulum has already started to swing back.

Reconstruction Policy

Parliament To Be Asked To Endorse Proposal

Parliament will be asked at the coming session to endorse a proposal for a widely-embracing national reconstruction policy, including building homes, slum clearance, land settlement and reforestation. Loans under the scheme would be made available at low interest rates, with the creation of greater opportunity for the youth of Canada would be a major objective.

Sponsor of the proposal will be Thomas L. Church (Cons., Toronto-Broadview), who will ask approval of a resolution in the following terms:

1. That in the opinion of this house, Canada should immediately adopt a comprehensive national housing, building, reconstruction, reforestation, slum clearance, land settlement and reforestation policy adapted to its circumstances, and also embracing as one of its main features a national policy for youth in relation to education and industry and employment, so as to get people off the dole and back to remunerative employment.

2. And further, this house is also of the opinion that in any such national reconstruction policy, a lower rate structure for bank, mortgage and insurance loans is an immediate necessity. Such a reconstruction policy to also embrace protection for industrial workers in urban and suburban areas from forfeiture on the same principle as farmers and fishermen are now afforded by existing legislation.

VICKS COUGH DROP

Quakes Are Annoying

Northern Ontario Settlers Are Shocked

Becoming jittery about the possibility of a quake along the Translinking and Northern Ontario Railway has gone far past the thrill and novelty stage, they don't stop, say harassed settlers, the government will have to do something about it.

Their uneasiness is based on a 30 miles north of North Bay, are pestered, nervous and plain fed up. The latest complaint came from F. E. Sains, who may be regarded as official spokesman for settlers in the Divor area.

Settler Sains smooched two miles from his cabin to the nearest telephone line and let it be known the local federal authorities can start an investigation. After all, these men are some cause for these rattlings and shakings.

Mr. Sains said tremors have been felt since last year, and the Big Quake of Nov. 1, with its epicentre near Divor, left its trail of recurrent rumblings and quivers.

"They last from five seconds to more than a minute, and have come at the rate of 15 or 20 in a single day," said Mr. Sains. "I think the ground in which my cabin is built must be hollow, for the cabin seems to lift right up in the air when the quakes come. And from the sound of the rumbling, I believe the ground on each side is hollow too."

Canada Must Support League Nations' proper title is tied up with the British Commonwealth of Nations and the League of Nations and it is to the country's advantage to support these groups wholeheartedly, declared Sir Robert Falconer, president of the League of Nations Society in Canada, in an address before the Border Cities branch at Windsor, Ont.

Greenland is the only place in the world where the mineral cryolite is found in quantity. 2131

Economic Council

Premier Of Nova Scotia Appoints Prominent Men Of The Province

Representatives of Nova Scotia's mining, lumbering, fishing, agricultural and manufacturing industries were named along with education and labor authorities to serve on the economic council by Premier Angus L. Macdonald.

Nine prominent Nova Scotians, headed by Dr. A. S. MacKenzie, former president of Dalhousie University, who will be chairman of the commission, had assured the premier they were "quite ready to render their assistance in every possible way."

The council was instituted on the recommendation of the Jones commission which investigated the economic ills of this province a year ago and reported "we believe that the first need is the establishment of an economic council."

The following were named as members of the council:

Dr. A. S. MacKenzie, a noted Canadian scientist, former president of Dalhousie University and senior member of the national research council of Canada, chairman;

Dr. A. B. Balcom, professor of economics, Acadia University, Wolfville representing education;

P. W. Gray, assistant general manager of the Dominion Steel and Coal Corporation, associated with the Nova Scotia steel and coal industry in various executive capacities since 1900—representing mining;

C. G. Hawkins, of Milford Station, Kings county, prominent Nova Scotia lumberman;

Neil McAulay, president of the steel council of the Sydney steel plant—representing labor;

Dr. Donald F. Macdonald, associate professor of geology at St. Francis Xavier University, Antigonish, who has had wide practical experience as a geological expert since 1906 when he graduated from George Washington University;

O. F. MacKenzie, president of Halifax Fisheries and established that export firm in 1914 after he had had practical experience as a fisherman—representing fishing;

Frank Standish, Truro, president of Standish Limited—representing manufacturing;

P. Waldo Walsh, director of marketing for the Nova Scotia department of agriculture—representing agriculture.

The council will probably meet early in the new year. One of its first duties will be to appoint a permanent secretary. All appointments are effective immediately.

New Engine For Plane

Famous Freighter Will Take To Air Again Soon

One of Canada's largest planes, the famous Junkers Ju-52 freighter brought to this country in 1933 by Canadian Airways, will take to the air again soon and prairie residents will get their first chance to see it.

The huge ship, built to carry tons of freight and with a cabin so large a man can walk up and down it, was damaged in a crash landing in a few flights in northern Manitoba when it became a "white elephant of the air." The motor gave out and the Canadian air ministry's refusal to license the ship even if repair parts were obtained caused Canadian Airways to put it in storage.

The government air experts said the motor was not big enough for such a huge plane.

But the British air ministry just recently released one of its proved 900-horsepower Rolls Royce air motors and Canadian Airways purchased it. One-landed engine was then the original motor, the Rolls Royce will be fitted to the Junkers and the plane again put in operation. Present plans are to use it on the prairies in tests before taking it north again for the heavy freighting work there.

World's Oldest Men

Have Just Died Within Short Time Of Each Other

The world's oldest men have just died almost at the same time. At Male Krusa, near Belgrade, Yugoslavia, a man named Trajko Similjovitch has died at the age of 123. He had been married for 52 years, and enjoyed good health almost to the end of his life. His wife who survives him, is still upright and sturdy. All the residents for miles around are mourning for the old man, for he was an excellent story-teller and a mine of historical reminiscences. Besides this, they regret his one ambition—to ride in a motor-car before he died—was unfulfilled. Meanwhile the oldest man in Durban, Natal, has died at the age of 106. He was Krammchind, an Indian market gardener. He came to Durban from India in 1874.

"KNOW CANADA" CONTEST Starts Jan. 4

531 Cash PRIZES

1st Prize	\$1,000.00
2nd Prize	500.00
3rd Prize	100.00
4th Prize	50.00
5th Prize	25.00
6th Prize	25.00
20 Prizes of	10.00
30 Prizes of	5.00
475 Prizes of	2.00

Just think what you could do with \$1,000.00! Make a big payment on a new home—buy a new automobile—buy new furniture for your home—take your family on an extended trip—assist a college education for your children. The STAR WEEKLY "KNOW CANADA" PUZZLE CONTEST offers \$1,000.00 as the first cash prize, 531 prizes in all—all cash prizes. The contest itself will provide a great deal of fun and prove of real educational value to your whole family. Be sure to enter. Match your skill against your neighbors and win one of these big cash prizes that will give you money to go places and do things.

For 12 weeks The Star Weekly will contain four puzzle pictures each week—48 pictures in all—each picture suggesting the name of a Canadian city, town, lake, river or other named geographical feature. The problem is to select the correct name to suit each picture. A list of names printed beside the pictures will contain the correct answers for all the geographical features pictured. The contest is open to everyone.

in Canada and Newfoundland—except employees of The Toronto Star Weekly and The Toronto Daily Star and their families. As many members of one family as wish can enter the contest, but each must use a separate set of puzzle pictures, with names selected—and any person can send in as many entries as he, or she, wishes, providing a complete set of pictures, with names suggested, accompanies each entry.

Identification Cards

Use Throughout Canada Is Recommended by Montreal Citizen

Use of identification cards for citizens throughout Canada was recommended by Brig.-Gen. E. de Paet, president of Montreal unemployed relief commission.

Such a scheme, he told members of the City Improvement League, would aid greatly in such problems as registering unemployed, preventing impersonation at polling booths and would also serve in the nature of a prospect within the country.

Almost A Tragedy

"They had been married only a month and he had left for a few minutes while she prepared a salad in the kitchen.

Suddenly a piercing scream rang out, and he rushed to the kitchen prepared to face he knew not what.

"Whatever is the matter, darling?" he panted.

"It's a—'a caterpillar!'" she said, with an effort. "Oh, Herbert, what if I had been in the house alone!"

Still a car will keep running despite new models that make it look funny.

A seven-foot clover has been discovered by scientists.

New Discovery Important

Chemical Methods Ice Forming On Airplane Wings

A chemical method of preventing the formation of ice on airplane wings has been discovered by research engineers of the Royal Air Force, it was announced by Sir Philip Sassoon, parliamentary under-secretary to the air ministry.

It is generally believed the loss of the Belgian air liner December 10 near Talsford, Kent, which took 11 persons to their death, was caused by the accumulation of ice on the plane's wings.

Sir Philip said the new discovery is being carefully developed and is expected to make for greater safety in all kinds of flying weather.

"What do you make a week?" asked the judge of an Italian organ grinder.

"Twenty dollars, are?"

"What, twenty dollars for grinding an organ?"

"No, sir; not for da grind, but for da shut up and go away."

Do right and fear no man. Don't write and fear no woman.

No man can make a fool of himself all the time. He has to sleep occasionally.

New Dwellings Needed

Many Homes Needed In Canada To House Low Wage Earners

The board of control at Ottawa had under consideration a report from a sub-committee of the National Construction Council of Canada saying at least 2,086 new dwellings are needed to house low-wage earners and relief tenants.

The report said at least 570 existing occupied dwelling units might be demolished to make room for new and more satisfactory houses.

It added rehabilitation of 1,300 houses should be launched and that 5,675 families are occupying 3,529 dwellings, causing serious overcrowding.

A Simple Preventive

Of eight victims of diphtheria in Toronto last year, only one had been toxoid. Among more than 100,000 immunized since 1929, this is the only case where diphtheria has proven fatal and this is said to be circumstances which explain this one. Is there any other deadly disease where a simple preventive measure is so sure a guarantee against a fatal attack?—Toronto Star.

Eighty per cent of all adults are immune to infantile paralysis, according to estimates.

Damage by Moths Can Be Heavy in Winter

Under the impression that moths commit their depredations in the spring and summer months only, many people display little care in putting away their summer clothes for the winter. As a matter of fact, moths may be found in heated modern buildings all the year round. Prevention is better

than cure; therefore it is necessary to use the same care in packing up summer clothing in the fall as is bestowed on winter clothes in the spring. Moths themselves do little harm, except that they lay eggs, and when the eggs hatch into larvae, or caterpillars, feeding or other wise damage, commences at once. As the young larvae are sensitive to light, they seek out protected situations in the folds of furs or woollen garments, or in the interior of upholstered

furniture. Summer garments before being laid by for the winter should be thoroughly aired, preferably in strong sunlight. If there are no airtight trunks or chests handy, the clothing should be placed in cotton or paper bags, or in cardboard boxes sealed with strips of paper. As an alternative, the clothing should be wrapped in two thicknesses of strong wrapping paper, taking care that the edges are turned so that the moths cannot gain entrance. The control of moths which infest clothes is fully discussed in a circular prepared by the Entomological Branch of the Dominion Department of Agriculture.

Hockey Notes

(Continued from page 1)

ing lit to start a hectic battle, many players and fans taking part in this.

The Cards, awakened by this battle went into the third period with grim determination to score, and in short order B. Oliver, C. Norton, F. Mason and Dumka found the goal to put Arrowwood well in the lead.

While the Blackie boys were fast skaters, they were unable to pass through the defence thrown up by Dumka, and D. Oliver, who handed out some stiff body checks, much to the delight of the fans.

Arrowwood—Cary: Dumka, D. Oliver; F. Mason, C. Norton, F. Mason, Beagle, E. Norton, B. Oliver.

Midget Hockey

With a score that was no indication of the play, the Gleichen Midgets emerged victorious over the Arrowwood Midgets here last Friday. The Arrowwood purchasers gave great exhibitions of stickhandling and passing, only to be blocked by Bogatie in the Gleichen goal who proved a real asset to his team. Gleichen scorers were Schnepf (2), A. Murray (2), W. Murray (1), Garland (1), Swain (1). The boys accounting for the Arrowwood counters were Burris, B. Brown, Oliver, P. Brown.

Blackie 0-Arrowwood 6

In a return game with Blackie in Arrowwood on Monday night, the Midgets turned loose on their western opposition, to avenge a previous 8-1 defeat, and at the final bell, had chalked up a 6-0 lead. Again passing and stickhandling proved to Arrowwood's advantage and accounted for most of the goals. Brown, Oliver and Dumka displayed very good teamwork. Due to the absence of Norman Jacques, Oliver played for both lines, thus distinguishing himself as a 60-minute man.

Teacher: What would a nation be without women?
Pupil: Stagnation, I guess.
